EDUCATION

Bachelors In Vocation, Software Development

2024 - 2027

University of Allahabad

CGPA: 8.60/10

TRAININGS / CERTIFICATIONS

Node.js Certification

Apr 2026

Hackerrank, Virtual

SQL CERTIFICATION

Mar 2026

Hackerrank, Virtual

CSS Certification

Mar 2026

Hackerrank, Virtual

PROJECTS

[JWT Authentication System ↗](#)

Mar 2026 - Apr 2026

Implemented JWT-based authentication with secure APIs, user authorization, and protected routes. Implemented OTP verification with email integration using Nodemailer and expiry handling. Integrated Redis for efficient OTP storage and applied rate limiting for API security. Designed a modular backend using MVC architecture with structured routes, controllers, and middleware

[Simon Says Game ↗](#)

Mar 2026

Developed a Simon Says game with dynamic sequence generation and interactive user interface. Implemented game logic to handle user input, pattern matching, and level progression. Designed responsive UI for engaging and smooth user interaction. Ensured efficient event handling and state management for consistent gameplay.

[TODO CRUD Application ↗](#)

Feb 2026 - Mar 2026

Developed a Todo CRUD application for efficient task management using Node.js and Express. Implemented Create, Read, Update, and Delete (CRUD) functionalities through RESTful APIs. Structured the backend with modular routes and controllers for maintainable code. Ensured reliable data handling and validation for consistent application performance.

SKILLS

- Node.js
- Express.js
- HTML 5
- CSS3
